

AFTER HOURS USE OF AGENCY FACILITIES

Agency facilities – the Landfill and Poweshiek Transfer Station – will be opened for use during times other than posted operating hours only in the event of:

- Emergencies
- Hardship Situations
- Major tourism events – currently defined as Pella Tulip Festival and Knoxville Nationals
- Holidays – those days on which Agency facilities are closed per the Employee Handbook

In such cases, the availability of Agency operators to receive and cover refuse will determine whether the Agency will open the requested facility.

An opening time or period must be pre-arranged with facility personnel prior to the holiday or special opening date. For emergencies and hardship situations, all such requests must be received by the Agency at least 24 hours prior to the requested opening time. For major tourism events and holidays, all such requests must be received by the Agency at least three working days prior to the requested special opening date. Saturday is considered a working day.

All vehicles from the requesting company must arrive at the Agency facility within the agreed upon block of time.

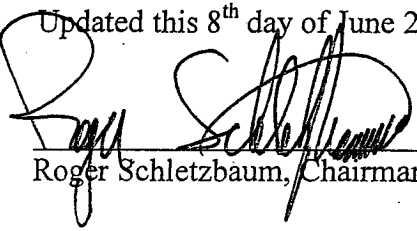

Companies requesting entrance will be required to reimburse the Agency as follows:

- Emergencies/Hardship Situations/Major Tourism Events
 - Opening fee of \$70
 - Tipping fee on waste delivered
- Holidays
 - Opening fee of \$100
 - Tipping fee on waste delivered

Companies requesting a special opening will be billed for the cost of opening regardless of whether they use the facility.

If multiple companies ask for the Agency to be open on the same non-work day, each company must pay the opening fee.

Updated this 8th day of June 2005.
